Number 66

## **Environmental Education Resources available for teaching various disciplines: Part I**

Environmental education has been identified as a source of interdisciplinary and transdisciplinary educational activities for teaching and learning different core curricular subjects. It aims to provide a convergence of teaching and learning methods to K-12 teachers and non formal educators. Environmental education resources are available through the databases of Educational Resources Information Center/ Clearinghouse for Science, Maths and Environmental Education (ERIC/CSMEE) and Eisenhower National Clearinghouse (ENC). On line, these resources can be accessed by typing:

<http://www.eelink.net>

Page down to CLASS-RESOURCES, DIRECTORIES, then to EE-RELATED EDUCATION SITES that will lead you to ERIC or ENC. You will then be able to search ERIC and ENC databases by following the appropriate pointers.

A number of resources are also available through journals that have environmental education as one of their areas of interest. ERIC JOURNALS (Citations identified by an EJ number) are available in your local library or via interlibrary loan services, from the originating journal publisher, or for a fee from the following article reproduction vendors:

CARL UnCover S.O.S. Email: [sos@carl.org](mailto:sos@carl.org)

Phone: (800) 787-7979

Online order: <http://uncweb.carl.org/sos/sosform.html>; or

ISI Document Solution: E-mail: [ids@isinet.com](mailto:ids@isinet.com)

Tel. (800) 336-4474, (215) 386-4399, online order form: <http://www.isinet.com/proserv/ids/idsfm.html>

We have identified some journals that have a focus on different disciplines of education as well as environmental education. Please note that these are only the ones being indexed and/or abstracted by ERIC and do not constitute a comprehensive list of journals. ERIC only reviews journals in English and French at this time.

These journals include resources for teaching of:

### **Agriculture**

**Agricultural Research** is a monthly publication by the Agricultural Research Service, U.S. Dept. of Agriculture (USDA). The Agricultural Research Service (ARS) is the

principal in-house research agency of the U.S. Department of Agriculture (USDA). It is one of the four component agencies of the Research, Education, and Economics (REE) mission area. ARS conducts research to develop and transfer solutions to agricultural problems of high national priority and provides information access and dissemination to: ensure high-quality, safe food and other agricultural products; assess the nutritional needs of Americans; sustain a competitive agricultural economy; enhance the natural resource base and the environment; and provide economic opportunities for rural citizens, communities, and society as a whole. Complimentary 1-year subscriptions are available free to mass media, schools, libraries, and USDA employees.

Send complimentary subscription requests to:

Editor, Agricultural Research, 5601

Sunnyside Ave., Beltsville, MD. 20705-5130 Phone:

(301) 504-1660;

E mail: [armag@asrr.ars.usda.gov](mailto:armag@asrr.ars.usda.gov)

Paid subscriptions are \$40.00/year domestic, \$ 50.00/year foreign, VISA and M/C accepted.

Contact: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA.;

Phone: (202) 512-1800; fax: (202) 512-2250;

Internet: <http://www.ars.usda.gov/is/AR/>

**Journal of Pesticide Reform** is published four times/year by the Northwest Coalition for Alternatives to Pesticides (NCAP). NCAP provides: assistance in developing model policies to protect our groundwater, food supply and forest watersheds from pesticide contamination; successful model pest management policies for school grounds, roadsides, national forests and more; information on hundreds of pesticides and alternatives for many pest problems; updates on citizen reform efforts and policy initiatives from across North America through our Journal of Pesticide Reform; direct assistance and referrals for pesticide exposure victims; and organizing assistance for citizens working for policy reform in their communities. Subscriptions are \$25.00 (basic member), \$15.00 (limited income), \$50.00 (associate member), \$100.00 or more (sustaining member). Donors of \$50 or more receive the

NCAP Annual Report.

Contact: Northwest Coalition for Alternatives to Pesticides (NCAP), P.O. Box 1393, Eugene, OR. 97440; Phone (541) 344-5044; fax (541) 344-6923; Email: [info@pesticide.org](mailto:info@pesticide.org).; Internet: <http://www.pesticide.org/default.htm>

## **Geology**

**Environmental Geology**, International Journal of Geosciences, is a monthly publication by Springer-Verlag. It is an international multi disciplinary journal concerned with all aspects of interactions between humans, ecosystems, and the earth. Dissemination of knowledge on techniques, methods, approaches and experiences directly aims at improvement and remediation of the environment as habitat for life on earth. In pursuit of these topics the geoscientific disciplines are invited to contribute their knowledge and experience. Major disciplines include: hydrogeology, hydrochemistry, geochemistry, geophysics, engineering geology, soil science and geomicrobiology. Recommended annual subscriptions are approximately US\$ 831.00 and are entertained with prepayment only. Contact: Springer-Verlag Berlin, New York Inc., Journal Fulfillment Services, Dept., 333 Meadowlands Parkway, Secaucus, NJ 07094; Phone: (201) 348-4033; fax: (201) 348-4505; Email: [subscriptions@springer.de](mailto:subscriptions@springer.de); Internet: <http://link.springer.de>

**Environmental Monitoring and Assessment** is published 18 times per year by Kluwer Academic Publishers. It emphasizes technical developments and data arising from environmental monitoring and assessment, the use of scientific principles in the design of monitoring systems at the local, regional and global scales, and the use of monitoring data in assessing the consequences of natural resource management actions and pollution risks to man and the environment. The journal covers a wide range of pollutants and examines monitoring systems designed to estimate exposure both at the individual and population levels. The journal also focuses on the development of monitoring systems related to the management of various renewable natural resources in, for instance, agriculture, fisheries and forests. The scope of the journal extends to the use of monitoring in pollution assessment, and particular emphasis is given to the synthesis of monitoring data with toxicological, epidemiological and health data, as well as with pre-market screening results. The journal also includes research and monitoring systems that help assess

anthropogenic impacts on natural resources and the environment from numerous activities, such as harvesting, development, and land use changes. Geographic information system analyzes and remote sensing studies relating such activities to land cover changes that affect, e.g. biodiversity and global climate change are also within the purview of the journal. Subscription rates are US\$ 1474.00, NLG 3096.00, including postage and handling. Contact: Environmental Monitoring and Assessment, P.O. Box 358, Accord Station, Hingham, MA. 02018-0358 (North and South America); Environmental Monitoring and Assessment, P.O. Box 989, 3300 AZ Dordrecht, The Netherlands (Rest of the World). Phone: (781) 871-6600 (US) (+31) 78 639 23 92 (Rest of the World); fax: (781) 681-9045 (US), (+31) 78 639 22 54 (Rest of the World); Email: [kluwer@wkap.com](mailto:kluwer@wkap.com) (US), [services@wkap.nl](mailto:services@wkap.nl) (Rest of the World); Internet: <http://www.wkap.nl>.

**Coast & Sea** is published twice a year by Sea Grant, Louisiana, as part of the National Sea Grant College Program maintained by the National Oceanic and Atmospheric Admin. (NOAA) of the U.S. Dept. of Commerce. Sea Grant is a unique partnership with public and private sectors, combining research, education, and technology transfer for public service. Sea Grant is the national network of universities meeting changing environmental and economic needs of people in our coastal, ocean, and Great Lakes regions. This publication may be obtained free upon request by calling (225)388-6445.
